Guns were all in position by 7.20 A.M. and firing commenced at 7.30 p.m. ^(A.M.?) and continued until 11.30 A.M. when party returned for lunch. After lunch firing commenced at 3 p.m.

Duck were not very plentiful and in the afternoon after the first volley they did not return at all. The whole shoot was poor owing to the amount of water in the surrounding tanks, caused by the very late monsoon.

H.E. Sir G. Lloyd

One Panther

6' 8"

First news of the Panther was received at Samana Camp about 11:45 a.m. The panther had been ringed in a nullah, about 8 miles distant, so it was decided to take lunch with us, and the party left in a fleet of Ford Cars, across country, for the Nullah about 12:15 p.m. The cars drove right up to the edge of the nullah, where the party descended and seats were arranged on the high bank above the nullah. The panther was reported to be under a large green tree, at the bottom of the nullah, on the right hand side. H.E. was placed in the centre of an admiring audience and the beat commenced.

The panther broke cover and galloped up the opposite side of the Nullah about 150 yds distant.

On gaining the top, the panther perceived the stops, turned and galloped along the edge of the Nullah, and when nearly opposite H.E., dived down to the bottom in big bounds. H.E. fired when the panther was about half way down the bank. The shot stuck the panther clean through the neck and he rolled over, dead. The distance was about 60 yards.

The panther was in perfect condition, having already despatched about 100 goats, and measured 6 feet 8 inches.

Black Buck shooting in Drangadhra State is carried out in a somewhat novel fashion, the idea roughly being, to motor across the Rann of Lutch until a herd of buck is encountered. Extra speed is then put on until the car is within about 100 yards of the galloping herd. The shooter selects his buck, and if a good head is seen to be galloping with the herd, the car is then manoeuvred so that the buck is finally isolated from his more fortunate brethren.

This buck is run for a period of about 5 minutes, during which time the shooter is allowed to fire 3 shots, and if unsuccessful, the car is driven off in search of another herd.

On the way back to camp a Black Bear was spotted feeding up a tree, by Colonel Ward. A rifle was produced and Capt. Carmichael and two Shikaris set out to try and get bear before dark. Jungle was reached with very little time to spare and bear was marked down still feeding in tree. As it was now almost dark Capt. Carmichael decided to shoot from edge of jungle at a distance of about 250 yds. Bear fell from tree but it could not be ascertained if hit or not. After about 2 minutes jungle was entered and Shikari spotted bear making away up the hill side but trees and undergrowth were so thick, it was some time before a shot was possible. Capt. Carmichael fired again and bear collapsed. On approaching, it was discovered that this was not bear originally fired at, but a much smaller one; and that owing to the dark this was not discovered until too late.

Bear was reported to be feeding on hillside about 2 miles below Camp. Capt. Carmichael set out with Shikari for the spot and started climbing the hillside. Jungle was very thick and the climb very steep and after about 3/4 of an hour a large rock was encountered from the top of which a good field of fire was obtainable.

After About half an hour the bear was marked down about 200 yards away but he was only just showing the top of his back and was busily engaged in digging out a root. He soon tired of this and stood up to look around. Capt. Carmichael took advantage and fired, hitting the bear just on white marking of chest. Bear was male in very good condition and very fat.

His Excellency and Capt. Carmichael fished for about an hour only.

About 4:30 P.M. set out to look for Bear and after sitting on hillside just above Draphama Camp, for about an hour a bear was spotted. On watching movements through glasses it was decided that bear was too small to shoot so we decided to stalk him and see how close it was possible to get.

Bear heard us and took cover in a very thick hawthorne bush and allowed us to come right up to bush before breaking cover. He suddenly bounced out barking and grunting like an overgrown Collie dog much to the alarm of one of the coolies who suddenly sat down with a plump but did not remain sitting for long when he discovered he was in direct line of bear's retreat. Bear was very quickly lost in thick jungle.

PAHALPURA CAMP

Lieut. Carmichael

One Black Bear

His Excellency and Capt. Carmichael left camp on receipt of news that a large bear had been spotted. The Nullah was soon reached and as wind was in right direction no time was lost in climbing up hillside about 250 yards above jungle and walking round shoulder of hill. After about $\frac{1}{2}$ an hour a large bear walked out of jungle and proceeded to cross short open space to another belt. As His Excellency has shot many bears, Captain Carmichael fired and hit bear just above shoulder, bullet travelling downwards and coming out of side. Bear made no sign of having been hit although rifle used was a '450 and reached jungle before another shot could be fired. About 5 minutes after no sign of bear having got out of belt. His Excellency and Capt. Carmichael entered jungle. Bear was discovered dead. Quite a good male bear in good condition.

After breakfast His Excellency and Capt. Carmichael set out for Waskat Falls and on the way up stream, His Excellency spotted what appeared to be a very large bear, indeed, on opposite side of Nullah about 800 to 1000 yards away. Bear was feeding on open grassy stretch of hillside. This bear was still on open slope on returning at about 4:30 p.m. about $\frac{1}{4}$ of a mile further on, His Excellency spotted yet another Bear among some rocks above us on the same side of the stream. Bear very quickly got our wind although 500 yards away and practically no breeze at all. The time was about 11:30 A.M., so bear must have been on track as sun was quite hot.

Bara Singh were to be seen in great numbers on both sides of the ravine. In the evening Capt. Carmichael spotted two bears together but wind was in wrong direction and bear made off giving no chance of a shot.

One Black Bear.

Fished for about an hour each day, just to keep enough trout for larder.

On evening of 10th Captain Carmichael missed a bear.

On evening of 11th No bear were seen at all near Pahalpura.

Capt. Aird and Shikari after watching jungle on opposite side of Nullah for about an hour, spotted a bear about half way up close to Fire line just below Draphama Camp. Time: about 5 p.m. Bear appeared to be a big one, so no time was lost in crossing to opposite slope. After about a stalk of half an hour, Captain Aird got a good shot and killed bear.

Bear was a very big one and skin and coat were in excellent condition.

Lt. Rawstone

FIRE LINE

Capt. Byron.

DRAPHAMA CAMP

One Black Bear

One Black Bear

Capt. Rawstone fished up stream from Harwan Camp and broke off about 5 p.m. to look for Bear. A likely Nullah was entered and a good position reached from which a good view and field of fire was obtainable. After about half an hour a she-bear was spotted and in about another 10 minutes emerged from jungle on far bank of a side nullah. Capt. Rawstone set off to stalk bear and very soon obtained a good position for a shot. Captain Rawstone fired his first shot at about 200 yards and hit bear through the ribs. Bear was knocked over but scrambled up and made off for nearest jungle. A second shot was then fired and bear wounded a second time, this time through the jaw and neck. This shot unfortunately spoilt her looks but finished her off. The bear was in very good condition.

Capt. Byron took up a position on the left hand jungle of the Fiveline and after about $\frac{3}{4}$ of an hour a bear was marked down grazing on an open space about a mile away. ~~Capt. Byron took up a position on the left hand jungle of the Fiveline and after about~~ Capt. Byron and Shikari began a stalk and after about half an hour got through the undergrowth and up the other side of the Nullah to a spot about 200 yds from the still unsuspecting bear. Capt. Byron fired his first shot at this range and bear made off apparently unhurt up the hillside. A second shot was then fired and bear collapsed. Bear was a male and coat was in excellent condition.

DIARY NOTES, PHOTOGRAPHS, MAPS, SKETCHES.

This was the first days shooting of our Christmas Camp at Larkana. H.E., the Commissioner-in-Sind, Captain Rawstone and Capt. Carmichael went to shoot the Drigh Shand whilst the remainder of the party: Major Nethersole, Capt. Hancock, Capt. Byron, the collector Mr Acott and Mr Green went to Allahad Khan Junio's dhand at Chandro.

When we got to Drigh, H.E. was received by Sheikh Karim Khan, the Zemindar who owned Drigh and who had built a small rest house and made lavish preparations for us.

We started shooting at 12.30 and kept on till about 3.30 pm. going out to our Khudnas in flat bottomed Sindhi boats. There were a fine lot of duck and we all fired off most of our cartridges and kept the duck going well between the guns. His Excellency got the finest bag of the town here 208 birds to his own gun.

On our return we found a big crowd of Zemindars and Haris and after much spiced rice and pilaus we all sat down and watched wrestling and dances for an hour before going home in the dusk.

The party at Chandro did not see so many duck but still had fairly good sport - A really jolly day - then back to a camp fire dug outside the tents in our camp.

DIARY, NOTES, PHOTOGRAPHS, MAPS, SKETCHES.

The host of today's shoot was Khan Sahib Ghulam Israr, M.L.C. The guns consisted of H.E., Mr Rieu, Mr Cowie, Captains Carmichael and Byron.

Shooting began after the usual song of welcome at about 12 noon, and was continued until about 3.30 p.m. There was very little water about, but plenty of reeds and rushes. The birds were more difficult and seemed to be flying at a greater pace, probably because the day was not so hot as the 23rd. The shooting was good, Cowie doing especially well with a 20 bore gun getting 73 birds with 130 cartridges.

After the shoot Mr Acott and Capt. Rawstone joined us from their shoot on the 'New Shand' and Hethersole and Hancock from 'Pagri'.

The day was brought to a close by the usual dances performed by old men dressed up in red skirts, after which we all motored back to camp.

DIARY, NOTES, PHOTOGRAPHS, MAPS, SKETCHES.

This was not expected to be a great shoot and turned out to be rather poor. The birds were mostly Teal and flew very low on a swerving flight, and the result was fairly poor shooting.

Capt. Rawstone headed the list and has the proud distinction of being the only member of the party to beat His Excellency on this tour. The guns being H.E., Mr Acott, Capt. Rawstone and Capt. Hancock.

The remainder of the party went to Ache and had poor sport, the idea being to shoot Partridge where they were reported to be in thousands. The result was not very convincing. However things cheered up for those of the party - including the writer - who got back to camp first and finished off the Plum Pudding and Brandy before the others got back.

DIARY NOTES, PHOTOGRAPHS, MAPS, SKETCHES.

For the last days shooting of the four most excellent days we again tried Drigh. The birds at once went up and kept very high making difficult shooting so that we only got a smallish bag. The guns were H.E., Major Nethersole, Capt. Rawstorne, Capt. Carmichael, Mr Acott.

The remainder of the party again shot Changoes, as on the first day and also had good sport. Mr Rieu scoring top marks.

We were all sorry to leave Kambar and go to Larkana and start work again, having had four of the best days one could ever wish for and surpassed by very few places outside Sind.

Left Khairpur Mirs about 8 a.m. and motored out to shoot pig. We arrived on ground to find large array of tents pitched behind an elaborate shooting 'Khudna', heavily draped and decorated inside like a drawing room.

From it one looked out on jungle cut in narrow rides radiating from the 'Khudnas' in an arc. The 'Khudna' has palisades jutting out from its sides which make the escape of any animals driven into these rides impossible. This particular form of "Sport" is happily peculiar to Khairpur alone. As the beat proceeds the pig are driven up these rides: rifles whose butts were covered with gold brocade are then handed to the guests who proceed to slaughter as many or as few of them as they desire. We did what was expected of us and after accounting for some 9 pig etc, sat down to a large breakfast in the adjoining tents.

We then returned to Khairpur and motored out again about 15 miles to Digikot, the Mir's Palace. Three or four miles beyond which an enormous camp had been set up: there we halted for a few moments and went on to another Khudna, and proceeded to shoot the requisite number of Black Buck driven in the same way as the pig.

Thence Camp, lunch and music by Bands from Mysore & Surat.

A small shoot but a very jolly one. There was little water anywhere in Kathiawar, this year and we shot over a series of pools in a dry river bed. The duck flew at just the right height and kept twisting and turning with the stream. It was very pretty shooting, indeed, and we all enjoyed it, the bag turned far in excess of the hopes held out on starting.

Arrived Jalala Station early and met the Nawab Sahel and Mamelo there. We motored out at once to Sarsan Camp, getting there about 10 a.m. After lunch His Excellency, Capt. Rawstone and Captain Carmichael, Mamelo and Pratap Singh went out for a lion beat, two lion were believed to be in the beat, but it turned out blank to the bitter disappointment of our hosts, who attributed the failure of the drive to a violent fit of coughing by Capt. Rawstone. Next morning was an anxious one as no 'Khubber' came in and we were due to leave the same evening, 'Khubber' fortunately arrived and His Excellency and Capt. Carmichael left in cars for a beat. We walked for some distance up a river bed and halted while the Machans were tied up about 20 yds from each other at the bend of a rocky gorge leading into thick jungle. The beat started and after about 20 minutes a magnificent lion galloped out towards us and tried to break out of the beat passed the stops, when one man jumped out and turned him back into the nala. His Excellency waited until lion was abreast of 'Machan' and fired hitting him just behind shoulder. Mamelo also fired, lion carried on without falling for about 100 yds, then fell and died. After about 10 minutes, beat started again, a few minutes later, there was a roar and a great deal of angry growling which indicated a second lion. It was very doubtful if lion would come forward, eventually he came at a sharp trot giving Capt. Carmichael a perfect shot.

DE FEBRUARY																				
22 nd	NAWAPUR	His Excellency																		
	TAPTI VALLEY.	Lieut. Carmichael						One TIGRESS						8 feet 2 inches						

This tigress was shot under extraordinary circumstances as when the guns arrived at the spot, the Shikari said the tiger had been ringed, but this seemed highly improbable as there was hardly a piece of cover capable of concealing anything. We entered the ring and proceeded to the Maeham and climbed up. Time: 3 p.m. We then told the Shikari to start the beat, on this he became very excited and kept pointing to a large bank in front; on the top of which were several stunted trees and a good many boulders. Finally he made us understand that the tiger was lying on this bank amongst the boulders in full view. We again said 'Alright start beating' but this he again refused.

Neither His Excellency or myself could see the Tiger, nor did we believe any tiger in its right senses would lie out on an open bank in the sun at 3 p.m. on a hot afternoon. We had no glasses, and could make nothing out. At last after climbing down the tree, I managed to see something lying among the boulders that looked like a tree trunk. His Excellency said he didn't see but to fire a shot. This I did, and shot was answered by a gruff! but a very soft one. His Excellency saw Tiger move. So another shot was fired and nothing happened. Capt. Carmichael then fired again. His Excellency then came down and we proceeded to walk up to tiger, which we found dead with a bullet wound through the neck and another in the shoulder. Tiger appeared perfectly fresh but wound in the shoulder did not look new also on pulling the hair, it came away like a piece of skin quite easily. We thought tiger must have been hit in shoulder by a poisoned arrow, such as are used by Bhils, and slowly dying when we arrived on the spot. We set the Police on to investigate and it finally came out that the kill had been doped with a kind of powder called "Khodra" which stupifies but does not kill.

This had previously been done to allow the Collector (needless to say an Indian) prior to our visit to shoot, another tiger under the same circumstances.

Roll On! Swaraj!!

Capt. Aird
Capt. Byron

One panther (female)

6' 10"

Two panthers (male)

7' 2"

(male cub) nearly full grown

'Khubber' was received at about 8 a.m. that a dog had been killed by a panther in the Palace garden during the night. A beat was arranged and H.H. The Maharajah, Captains Aird and Byron climbed into trees overlooking some thick jungle.

The beat commenced and not long afterwards a male and female panther broke cover at a gallop. Capt. Byron had a shot at the male and got him. The female being missed, turned back into cover. After a time the beat recommenced and a full grown cub broke cover again to Captain Byron who accounted for it. The female would not be beaten and was marked down in a tool shed. Capt. Aird climbed on to the roof and having dislodged several tiles eventually got in a shot. The whole shoot was rendered extremely difficult by the presence of a highly excited crowd on every point of vantage. The panthers were in very good condition.

KANARA JUNGLE.

One Tigress

8' 9"

Colin Adam and Capt. Rawstone went to Astoli for a tiger beat. Beat began at about 2 p.m. and nothing happened until beaters were in sight, when the beat appeared blank. Suddenly there was a yell from in front of Adam and a fine tigress broke cover at full gallop. Adam fired and made a fine shot, bowling the tigress over. Tigress attempted to get up but shot had broken her back. Another shot was fired which finished her off.

Tigress was in fine condition and measured 8' 9" and had a very pretty and well marked skin.

One Tiger

9' 10"

On receipt of 'Khubber', guns motored from Jagalbet Camp to Dandeli and turned off short of the villiage and after about a mile along this road, we met Mr Edie, who was running the shoot. We entered the jungle and after about $\frac{3}{4}$ of a mile came to the Machans, Aird got up into the first, Carmichael the second, His Excellency the third and Rawstone the fourth. His Excellency was covered by Mr Edie, the Conservator.

The beat started and after about $\frac{1}{2}$ an hour the tiger was first seen by Rawstone but just out of range. The tiger crossed towards His Excellency who fired hitting tiger rather high up in shoulder. Tiger was knocked over and lay growling and snarling for a few seconds. Suddenly tiger leapt to his feet and made off like a flash. His Excellency fired again, so did Mr Edie sitting behind and tiger fell again. Tiger was very big, indeed, and was of tremendous girth. He was so heavy that when carried on ladder it broke clean through the middle. He was an old tiger and had a previous bullet wound across the back of his neck, he was in fine condition.

22nd LONDA ROAD
FROM
JAGALBET CAMP

Lapt. Lynch

One Panther

6 feet 9 inches

Rough Beat

Colin Adam Esq.,

One Bison.

Capt. Lynch left Camp at about 4:45 p.m. and motored along the road leading to Londa and Belgaum. A ladder was put up against a tree about 25 yds from the Kill. Capt. Lynch climbed up and after a wait of about twenty minutes saw the panther approaching the Kill down one of the forest glades. Panther took a long time to come near and sat down every few yards like a big cat with his tail curled round his front paws. Finally he reached Kill and gave a good shot. He somersaulted back into jungle snarling as he went. As it was quite light, after about $\frac{1}{4}$ of an hour, Capt. Lynch went after him and found him dead about 300 yards away. Panther was beautifully marked and full grown.

Colin Adam wounded a big Bison in a rough beat, bullet hit Bison behind shoulder and Bison stumbled but went on. Adam and Shikari then proceeded to track Bison, and after about a mile they found the Bison had been lying down every few hundred yards and leaving big pools of blood. The trail led down a steep hillside covered with thick bamboos. On approaching one of these clumps without any warning Bison suddenly charged. Shikari was leading with Adam close behind. Both tried to jump clear, but Bison was very quick and caught Shikari with the side of his horns sending him flying head over heels down the hillside. Adam in trying to jump clear caught his foot in a tree root and fell heavily, the Bison charging straight over him and by good luck just missing him with his hoofs. As it was now dark and Shikari was very badly bruised and shaken, a move was made for home. The Shikari was unable to walk. An early start was made the following morning and Bison was found dead quite close to the scene of what might have been a very nasty accident.

1923

Kanara Jungles

SMALL GAME.

One Tiger

8' 9"

This is a well known beat and on this occasion lived up to its reputation. The ladders were placed in a line covering the opening of a fine valley about 10 miles in length with precipitous sides, and is full of a very fine teak and bamboo jungle and is an absolutely safe Sanctuary for big game. The Shikaris had traced two fresh pug marks coming out and none going back in. So we were all very hopeful. The beat started about 12 noon and had not been going for more than $\frac{1}{2}$ an hour when a tiger gave tongue on the right flank and was immediately answered by a second from somewhere about the centre.

The beaters were by now closing in when suddenly again on the right there was a great crashing of bamboo accompanied by roaring and growling and a fine tigress broke out across the fireline and disappeared; the stops being helpless to keep her in. About 10 minutes after this a magnificent full grown young tiger fell to Capt. Rawstone's rifle. A fine shot dropping him stone dead. This tiger was beautifully marked with vivid white stripes, and was in excellent condition.

KAPA CAMP, C.P.

His Excellency

H.E. Sir Frank Sly

Capt. Frazer

Capt. Rawstone

Capt. Geddes

Capt. Carmichael.

One Tigress 7 feet 2 inches

His Excellency, Capt. Rawstone & Capt. Carmichael arrived at Balaghat as the guests of His Excellency Sir Frank Sly, Governor of the Central Provinces. The party motored about 120 miles to camp at a place called "Kapa", about 2 miles from the camp occupied by H.R.H. The Duke of Connaught on the occasion of H.R.H.'s shoot, during his tour in 1921, when on the first day eight tigers were beaten up to the guns, of which 7 escaped!! and H.R.H. got the eighth. The only one he fired at. The staff missing several easy shots much to the anger of Sir Frank Sly. As soon as we arrived in camp we found 'Khubber' of two tiger waiting for us: so after hastily swallowing breakfast, we set out on foot, to a tract of jungle about 2 1/2 miles away and had our first beat. This unfortunately was blank. We then proceeded by car for about 5 miles, and stopped at the next beat for lunch. At about 2.30 p.m., we climbed up into our Machans and beat started. After about 3/4 of an hour during which countless Sambar and hog-deer poured past the Machans, there suddenly arose a tapping of the stops on the right flank, and Capt. Carmichael got a glimpse of tigress coming towards him through the long grass. Tigress stopped at tapping, then went on towards stops, tapping began again and tigress looked up and saw one of the stops. She gave one gruff and wheeled round and galloped straight across the beat and passed right under His Excellency's Machan at full gallop. His Excellency did not have time to get a shot in and she was gone in a flash, Capt. Geddes covering His Excellency dropped tigress. First shot striking in shoulder furthest away from him and making a bad flesh wound. Tigress fell and before she could get up a second shot finished her off. She was a small tigress in good condition and had killed a doe-chital in the beat, which we took back to camp.

'Khubbei' was received early, and party set out at about 10 a.m. by elephant and pony to a beat about 5 miles from Camp. On dismounting we passed water hole with fresh pug marks, but beat was blank.

Party went off to another beat quite close but again drew a blank. It was now about 3 p.m., so Sir Frank Sly proposed some of the party should motor up to a forest bungalow about 12 miles from Kapa called Khana and try and get a stag. Accordingly His Excellency, Capt. Rawstone, Mr Mott and Capt. Carmichael set off, with some bedding and a basket and arrived at Khana about 4.30 p.m. No time was lost and party split up and set off. His Excellency and Capt. Carmichael going after Stags: Capt. Rawstone & Mr Mott after Bison. His Excellency had bad luck as he wounded a Swamp Deer with a long shot, but although the trackers followed up for miles, it was not picked up.

Capt. Carmichael got a Cheetal Stag carrying a very fair head.

Mr Mott & Capt. Rawstone had a long stalk after a small herd of Bison and had a good thrill as after getting fairly near herd by means of a dry Nullah. Mr Mott took a shot and says he hit a big bison. Herd made off at top speed, where upon both stood up in Nullah and watched where herd went; Suddenly there was a bellow and a galloping of hoofs from behind and a huge bison cleared the nullah in a leap straight over their heads and kept on after the herd. No blood was found from one fired at.

KHANA CAMP

C.P.

Capt. Carmichael

One Swamp Deer

(eleven pointers)
(early morning stalk)

The party at Khana had 'Khubber' in, early in the morning of two kills overnight, so we sent a car off post haste to Sir Frank Sly, when we got a message from him to say 'Come back to Kapa two kills overnight. We did not know what to do and finally decided to wait where we were. Sir Frank Sly soon arrived and took a certain amount of smoothing down as apparently the kills at Kapa were pretty certain to yield a tiger. However we set out and entered the jungle about 4 miles from Camp and were allotted our Machans by Sir Frank Sly, and ^{the} beat which was to be a silent one began. The beaters started off tapping trees but were not silent for long, as suddenly a yell went up chiefly, I think, of fright and fear as some of the beaters came very suddenly on a tiger who apparently was of two minds whether to go for them or come on. I think the yell decided him as he fortunately came on. After the beat had been going about half an hour, Capt Carmichael saw a tiger coming towards him, tiger left jungle for an open space covered in high rank grass and came on very quietly and slowly turning every now and then to snarl at the tapping noise behind him. Tiger gave a good shot and did not fall over when hit although rifle was a 500 S.V. a big red stain about the size of a soup plate appeared on shoulder. Tiger broke into a gallop with a loud roar and Capt. Carmichael fired again but missed. Sir F. Sly then made a magnificent gallery shot at about 150 yds and dropped Tiger. Almost immediately after there was a shot from the left flank and a fine tigress ran the gauntlet of all the guns and was unscathed when she reached Capt. Lawstone. She was hit by him just behind the shoulder and carried on and was dropped by His Excellency in the next Machan. This excitement had no sooner died down when there was a great noise from the right flank stops who could not manage to keep in the beat, yet another fine tiger.

This tigress had killed in a well known beat, so that we were not long in getting everything ready and machans allotted. After beat had been in progress for about half an hour tigress came forward up a rocky nullah and stopped just out of range of Captain Carmichael's Machan. She was not sure which way to go, and finally walked parallel to Machans and after about 200 yds turned straight towards them, Capt. Frazer fired closely followed by Capt. Rawstone and tiger fell. There seemed to be some doubt as to whose tigress it was, and verdict was finally given in favour of Capt. Frazer. Tigress was old and in good condition.

One Swamp Deer

One Cheetal

Two Cheetal (one belonging to H.E.)

This was a hunt arranged for on last day. We took up our positions at the end of a huge Maidan about 3 miles long by about a mile wide. At about 5 p.m. all deer in the neighbourhood come out of the forest for fear of tigers, panthers etc., and nothing will make them go in again. It was an amazing and unforgettable sight as about three to four hundred head of deer galloped past Machans, all mixed up, Swamp-Deer, Sambhur, Cheetal, Black Buck, and Hog-deer. Nobody seemed to do much shooting as the sight was too astounding. His Excellency fired at a fine Swamp-Deer and hit a Cheetal, and denies it, but according to an eye-witness this is true.

Bag was as per opposite page.

	KULGI JUNGLE DANDELI, KANARA	His Excellency Capt. Carmichael						One Tigress								8 ft. 5 inches.				

From camp at Dandeli, we motored to Kulgi Forest Bungalow and entered jungle and after a four mile walk on the most sultry morning we arrived at beat. Mr Coplestone, the Chief Conservator and one of his assistant forest officers, Mr Bell by name, we already found there. Jungle was all bamboo, not a tree in whole beat, which, by the way has a very unsavoury reputation, as two beaters have been killed by tiger, as there are no trees to get up. Beat had no sooner started, than it simply poured in torrents. I could not see 10 yds and was soaked in as many seconds. Rain fortunately stopped, hurriedly clearing my sight as beaters were now quite near. I suddenly stopped on a shot from right flank, then silence; no whistle. About five minutes later I saw tiger coming from in front of His Excellency. I waited for him to fire but nothing happened. I finally fired and hit tigress through shoulder. She immediately began to spin like a top, on three legs crashing through bushes and bamboo as if they were not there and coming like a train for the bottom of the ladder. I could not get my second barrel off, so looked round at my tree in hopes of finding something to catch hold of. Not a branch! Fortunately at that moment tigress crashed into a stouter bush and and was knocked over and fell a yard from base of my ladder. I wasted no time in getting my second barrel off then. Tigress had three cubs and the first shot fired by Bell killed one. The other two came and sat under H.E.'s ladder and growled at him. Finally one escaped. It was very strange tigress leaving her cubs when they were so very small. Bell's shot was fired in error he thought tiger was breaking out of beat. This turned out to be the first cub. Rain, thunderstorms and elephant spoilt the remainder of this trip, no more kills being reported.

Overleaf are two typical sample wires (in original) from forest rangers responsible for putting out ties.

A beautifully proportioned head shot in Fire Line Nullah. Early morning His Excellency missed a Stag; went back and wounded this one in the evening. Stag crashed into patch of jungle, different Stag appeared which H.E. shot by mistake. Small head measuring only 26". Big Stag crashed out lower down, when his Excellency dropped him.

Capt. Rawstone and Carmichael both fired at Stags but missed. Both very fine heads: one a 'Royal'. Major Nethersole saw several but none big enough to shoot.

* These two guns shot on for an extra 3 hours.

This shoot was arranged for by the Resident and began at 10.30 A.M. on a dark day. Rained for about an hour before firing began. Cold and raw.

The big duck were reported to have come in but broken weather may have removed them down South. Bag was made up chiefly of Teal and Pochard (394 Teal, 120 Pochard). Shooting ceased at 1.30 P.M. with the exception of General Sir Hari Singh who could be heard banging away with his very choked 4 guns for about an extra 3 hours.

It was a delightful shoot and will I think long be remembered by the Staff as our last bag in India, a very jolly wind up to a wonderful country like Kashmir, and a memory of how the duck can come, when we get Home and find no shooting at all!!!

Arrived in Vancouver ex Empress of Japan on Sept 27th and put up at Vancouver Hotel. Crossed to Nanaimo and motored 105 miles to Willows Hotel Campbell River. The following morning we motored to the Lye Salmon Club where we found our guides complete with permit waiting for us. My Guide was a delightful man of some 60 summers who had fought for three years in France before being invalided. He wanted me to use a spoon but this I refused to do so he produced a fly of his own tying, deers tail with some red in it. The day was dull + threatening with enough wind to ruffle the surface of the water. After rowing for ½ an hour we noticed the gulls diving + wheeling + the fish were obviously on the move. Not long after getting on the run I was touched but must have been too quick but a minute later I was into a fine fish. I was kept remarkable busy for the next five minutes keeping up with his efforts to get away, he was out of the water four times in succession, then off like a streak my reel making a grand hum. After about 15 minutes I had him in the net. A beautiful fish in perfect condition fresh in from the sea. The rain now began + the wind got up quite a bit making the light boat swing and dance up + down. In about 15 minutes I had another and played him for about 3 minutes when he leapt twice in quick succession and before I could take in the slack he was gone. He was about the same weight as the first 13 lbs. My disappointment was short lived as I got into another about 5 min. Later, a smaller fish but a wonderfully game fighter. Shortly after this I got two more and then the weather broke completely so we pulled home and had to fight every inch of the way. Unfortunately the following day was unfishable.

A bad thunderstorm during the night 11/12th made the birds very wild. The morning was very dull and overcast and not a breath of air. We climbed the high ground round the Summit with the idea of filling the ground about the tank. 5 packs got away without a shot, birds were plentiful and appeared to go on to low ground. This we took in in two beats but could not get near the birds. We were absolutely defeated by the heavy going and in a state of exhaustion.

Birds again plentiful but very wild and almost impossible to get within shot, day was very close. Moor was alive with Rares which we decided to shoot on last beat and then we saw practically none. A good shoot should result when moor is driven.

SMALL GAME.																					
Date.	Place.	NAMES OF PARTY.	Hares.	Pheasants.	Partridges, Black.	Partridges, Grey.	Chikor.	Jungle fowl.	Pea fowl.	Quail.	Sandgrouse, Imperial.	Sandgrouse, Small.	Geese.	Duck.	Teal.	Snipe.	Florian.	Pigeon.	Grouse.	Various.	TOTAL.
5.9.32.	Strathleven.	Sir Frederick Graham Capt Warrack. Capt Carmichael. 4 other guns.	4.													1			173		178

A day of rain & high wind. Birds very plentiful but wild and would not face the wind. Large packs breaking out or turning back over beater's heads. Bad scenting day and many birds were not picked up. Last drive of the day was best birds coming down wind at a great pace. and taking a lot of shooting.
